Vocational And Technical School | Education Project by Hongye Furniture

National Key Secondary Vocational Schools

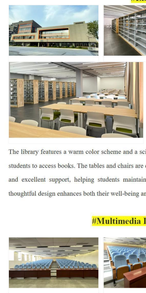

The new campus can accommodate 3,500 students, with each building serving as a scenic spot surrounded by greenery, pavilions, and landscaped areas. Facilities include a library and comprehensive building, a teaching and training building, a gymnasium, student dormitories, teacher apartments, and a dining hall, creating a harmonious and vibrant learning environment.

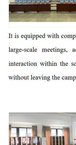

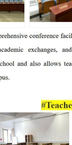

All buildings on campus are connected through a flexible shared corridor, linking all ways efficiently. This corridor serves as the main axis of the campus, functioning as both a key landscape feature and a vibrant public space for interaction and activities among teachers and students.

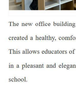

#Classroom

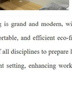

#Library

The library features a warm color scheme and a scientifically designed layout, making it convenient for students to access books. The tables and chairs are ergonomically designed, offering comfortable seating and excellent support, helping students maintain proper posture while reading and studying. This thoughtful design enhances both their well-being and learning efficiency.

#Multimedia Lecture Theatre

It is equipped with comprehensive conference facilities, providing an excellent environment for hosting large-scale meetings, academic exchanges, and other events. It effectively promotes academic interaction within the school and also allows teachers and students to enjoy cinema-quality movies without leaving the campus.

#Teacher's Office

The new office building is grand and modern, with a refreshed layout! Hongye Furniture Group has created a healthy, comfortable, and efficient eco-friendly office environment for the school's teachers. This allows educators of all disciplines to prepare lessons, collaborate, and engage in teaching activities in a pleasant and elegant setting, enhancing work efficiency and meeting all the requirements of the school.

#Meeting Room

The conference room of Hongye Group adopts the traditional conference layout, reflecting the conservative, serious and formal image of the school. However, by incorporating elements that convey a more relaxed, free, and open atmosphere, the design aligns better with the principles of modern education, fostering creativity and collaboration.

#Student Dormitory

The student dormitory area is designed as an independent zone with a warm and green environment. Each dormitory building is filled with natural sunlight and equipped with air conditioning, balconies, and private bathrooms. The facilities include ample daily supply of hot and cold water, with a functional layout featuring wet and dry separation for enhanced comfort and convenience.

#Teacher's Dormitory

It is equipped with kitchens, bathrooms, and essential living facilities to meet the daily residential needs of the teachers.

#Canteen

The school canteen spans three spacious and well-lit floors, offering a comfortable and pleasant dining experience. No matter where you choose to dine, the new campus cafeteria provides an inviting environment where students can connect, share delicious meals, and enjoy moments of campus life together.

To meet the diverse needs of students, the canteen not only offers a public dining area but also includes private dining rooms, providing a convenient space for school business receptions and meals.

In the commercial furniture field, we take pride in being more than just a manufacturer—we are your dedicated partner in creating inspiring and functional spaces. Our one-stop solution seamlessly integrates quality furniture production, innovative design, and efficient project execution to meet your unique needs. Whether it's an office, a hospitality venue, or any other commercial environment, our expertise in interior design ensures that every detail is tailored to enhance aesthetics and functionality. Trust us to transform your vision into reality and elevate your space to the next level.
